

Mamie Markham Research Award

Purpose: Several Markham Research Awards of up to \$10,000 each are available to support research conducted by graduate students.

Support Areas: Markham Award funds can be used to support research expenses including wages, service and supplies, equipment, books, living stipend, tuition, computer support and library services (past expenses are typically not covered). Limited support (e.g., housing and research expenses) may also be available for graduate students from other universities proposing short-term research visits to the HMSC. NOTE: Funds cannot be used for student fees.

Funds must be used within 24 months of award. Award recipients are asked to prepare a poster on proposed research at the June 2012 HMSC Markham Awards Symposium and make a short presentation on progress or results in the following year(s). These presentations, as well as financial reporting and other conditions, are required when accepting this award.

Application: Students must submit:

- Cover Letter
- A three to four page narrative concisely describing the research problem to be investigated: defining objectives, methods and significance of results. The hypothesis to be tested must be clearly stated and in the context of current knowledge based upon pertinent literature, yet written in a form understandable by a broad audience. Literature cited should be included in a bibliography. Include a description of how HMSC facilities will be used. This narrative is to be composed by the graduate student.
- A one-page budget;
- A one-page budget justification explaining how funds would be expended to support your research program. The budget justification should explicitly state the role of award funds in light of other available funds, and how these funds will add value to the research. It should also describe other funding, including other scholarships, supporting the work.
- Resumé, not to exceed 2 pages;
- Letter of support from a faculty member, not to exceed 1 page.

Deadline: April 11, 2012

Apply to: Dr. George Boehlert, Director
Hatfield Marine Science Center
2030 SE Marine Science Drive
Newport, OR 97365
email: hmscdirector@oregonstate.edu
Tel. (541) 867-0212 Fax (541) 867-0444

Application Guidance:

Applications must be submitted as a complete package by the deadline. Electronic submission, as a single PDF file by email will also be accepted. ***NOTE: Instructions for applications must be followed exactly or the application will not be considered.*** For additional application guidance, see <http://hmsc.oregonstate.edu/awards.html>

Applicants with previous awards from HMSC should clearly indicate the level of past support, be certain that reporting requirements have been met, and provide a paragraph describing past progress or results (include in the statement of current financial support).

The criteria by which applicants will be evaluated include: scientific merit (creativity, quality of science, and benefits of the research); academic qualifications and service activity (to institution, community, profession); use of HMSC facilities; soundness of proposed budget; and financial need.
