Enjoy the breathtaking views of Oregon's coastal scenery, and develop and refine your photography skills by enrolling in [Photographic Field Studies](#) (ART 399/499) at the Hatfield Marine Science Center in Newport. This 4-credit course is a portfolio-based, intensive class that includes Adobe Photoshop workshops and printing and mounting classes. At the end of the term, you will present your work at an exhibition open to the public. This class is held at the coast once per week, providing you the chance to put your newly learned skills into action.
