

Holt Marine Education Fund

- Purpose:** To foster education in the marine sciences by providing financial support to undergraduate or graduate students pursuing marine science studies. The request should have definite educational output for a course, public education, extension, etc. and be marine related.
- Support Areas:** The types of studies eligible for support include marine science education, library/information, and basic or applied marine research projects or internships.
- Application:** By faculty advisor, listing proposed student, student's capability to handle the project, and how the project will be used in an educational setting. Application packet should include:
- One-page project description;
 - Statement of intent and career goals by the student, not to exceed one page. It should address how the project will contribute to applicant's career goals.
 - Required budget (maximum \$6,000) *NOTE: Funds cannot be used for student fees.*
 - Resume of student, not to exceed 2 pages;
- Duration** One calendar year. The recipient will be expected to prepare a poster on proposed research at the beginning (June 2017) and an oral presentation with report on results at the end of the year (June 2018) at the annual HMSC-Markham Awards Symposium.
- Deadline:** **April 13**
- Apply to:** Academic Programs Manager
Hatfield Marine Science Center
2030 SE Marine Science Drive
Newport, OR 97365
email: hmscacademic@oregonstate.edu
Tel. (541) 867-0380 Fax (541) 867-0444

Application Guidance:

Applications must be submitted as a complete package by the deadline. Electronic submission, as a single PDF file by email will also be accepted. ***NOTE: Instructions for applications must be followed exactly or the application will not be considered.*** For additional application guidance, see <http://hmsc.oregonstate.edu/awards.html>

Statement of intent and career goals by the student should state degree sought and current financial support. Applicants with previous awards from HMSC should clearly indicate the level of past support, be certain that reporting requirements have been met, and provide a paragraph describing past progress or results.

The criteria by which applicants will be evaluated include: scientific merit (quality, creativity, and feasibility of proposed research and tangible benefit to marine education); academic performance and research experience; service activity (to institution, community, profession); use of HMSC facilities (encouraged, but not required); and financial need.
