

# **Safety Committee Meeting**

October 3, 2007

Members Present: Randy Walker (OSU), Dave Jacobson (OSU), Dave Johnson (OSU)  
and Devin Brakob

Dave Johnson asked where we were at with replacing the dock. Walker told that are seeking funds to replace the three piling that hold the dock presently and have been in communication with Port of Newport, and the Port of Toledo to see if they have spare floats that might be used. As of the meeting, no positive response had been received. Walker asked and it was approved that a planning meeting be set up for planning the tsunami drill on 10-11-07 at 10:00 AM upstairs in the Barry Fisher Building.
