Oregon Coast Education Program
2016 Summer Workshop Schedule

Science Educators
Grades 6-12
Charleston, Oregon
June 27 – 30, 2016

Classroom Educators
Grades 3-8
Newport, Oregon
July 11 – 14, 2016

Come to the coast this summer to learn about how the Oregon Coast Education Program (OCEP) can support you and your students with best practices in coastal and marine education! Educators will take part in an in-depth experience to explore the practice of science in a diversity of coastal habitats in Newport and Charleston. Topics include coastal ecology and habitats, impacts and solutions, climate change, working with data sets and making connections to the Next Generation Science Standards. Each workshop includes materials, meals, and 3 nights of dorm-style lodging.

Following the workshop, OCEP coordinators will be available to support you as you implement your coastal education plan during the school year. Teachers who implement a CEP are required to complete an evaluation and will receive a stipend at the conclusion of the 2016-17 school year.

For more information about OCEP, visit the Northwest Aquatic and Marine Educators (NAME) website: http://www.pacname.org/OCEP/ocep_about.shtml

Registration will open on February 1, 2016

*Registration fee: $90 per person or $75 for NAME members

For more information or to be placed on a mailing list, contact Cait Goodwin cait.goodwin@oregonstate.edu

*Current NAME members receive a discount on registration. Professional development units and continuing education credits will be available through Portland State University (at your expense).
