

Paper Owl Craft

Materials:

- Paper Owl Craft Template
- Yellow, Orange, and Black Construction Paper
- White Paper
- Scissors
- Glue
- Pencil
- Crayons, markers, or colored pencils
- Celery (optional)
- Paint (optional)

Instructions:

1. Cut out all body parts from the Paper Owl Craft Template (body, eyes, feet/talons, and beak).
2. Use a pencil to trace the owl body on orange, yellow, or black construction paper. Then, trace the beak and talons on colored construction paper that is different from the color you traced the body. Cut out the body, beak, and talons.
3. Trace the eyes onto the white paper. Cut out the eyes and add the black pupils using a black crayon/marker/colored pencil.
4. Create the owl wings by folding the right and left side of the circular body toward the center. Then, make the head by folding the top portion of the body down toward the center. See the upper right image in the photo above.
5. Use crayons, markers, or colored pencils to create feathers on the owl body.
6. (Optional): Use pre-cut celery and paint to create features. Dip the u-shaped end of the celery into the paint and print onto the owl's body and wings.
7. Glue eyes, beak, and talons to the owl body and add any additional details.
8. Enjoy your paper owl!
