Marine & Estuarine Invertebrates

(Z 461) CRN: 72222

Z 461 – Marine & Estuarine Invertebrates
4 Credits (M/W – 8-12 PM & F - 1-5 PM, July 22 - August 16)

Dr. Nate Kirk, Faculty, Depart. of Integrative Biology

Course Description

Comparative survey of eight major invertebrate phyla and many lesser-known phyla. Areas of emphasis will be 1) invertebrate identification, 2) natural history (diversity, habitat, feeding, behavior), and 3) comparative anatomy (adaptive significance of morphological structures). Laboratories and *field trips will strongly supplement lecture material. Lecture/lab. Taught at Hatfield Marine Science Center. *Note earlier start times are required for field trips.
