Fall Term at the Coast

Courses Offered:

The Fall Program offers newly updated course offerings with two tracks: Fisheries focus and a Wildlife focus. Tracks and options are fully customizable for student needs, providing flexibility and core requirements including capstone fulfilling courses.

FW 426 Coastal Ecology and Resource Management (5 credits) - meets September 9-12, then Wednesdays during the term and substitutes for the FW 488 capstone requirement or counts as a Habitats and Ecosystems course.

Fisheries Track

Course	Credits	FW Core Requirement
FW 323 Management Principles of Pacific Salmon	3	Species Conservation & Management
FW 464 Marine Conservation Biology	4	Species Conservation & Management
FW 465 Marine Fisheries	4	Species Conservation & Management
FW 474 Early Life History of Fishes	4	Behavior and Physiology

Wildlife Track

Course	Credits	FW Core Requirement
FW 419 Natural History of Whales & Whaling	3	Species Conservation & Management
FW 469 Behavior & Phys. of Marine Megafauna	3	Behavior and Physiology
FW 464 Marine Conservation Biology	4	Species Conservation & Management
FW 434 Estuarine Ecology	4	Habitats & Ecosystems or Botany

Customize your experience by adding or substituting these additional courses:

- **FW 401 Research Credit** (1-6 credits)
- **FW 407 Marine Science Seminar** (1 credit)
- **FW 410 Internship Credit** (3 credits)*

*In discussion with the Internship Coordinator
